How to Sign Into Your Personal Device At School

Step 1: Restart the personal device, Chromebook, laptop etc.

Step 2: Click the WiFi symbol in the right-hand corner.

Step 3: Select the BYOD Network that pertains to your building: "CRS-BYOD, AMS-BYOD, or AHS-BYOD The Fortinet Web Page will launch.

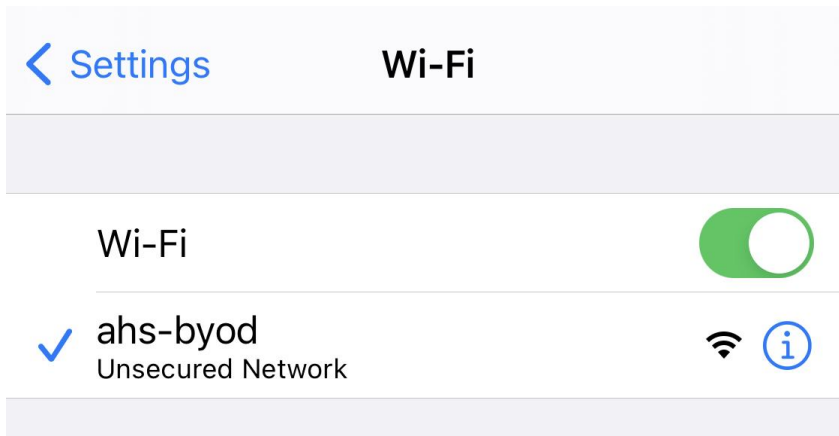

**Step 4:** Enter your network credentials. This is the student's firstname.lastname followed by their password. (These are the same credentials that students use to log into PanthersLink) Users will be required to do this each day.

<u>Note:</u> If a student cannot log in, they will need to have their network password reset.

Unsecured Network

Open networks provide no security and
expose all network traffic.

If this is your Wi-Fi network, configure the
router to use WPA2 (AES) or WPA3
security type.
