

VERSATRANS  
**MySTOP**

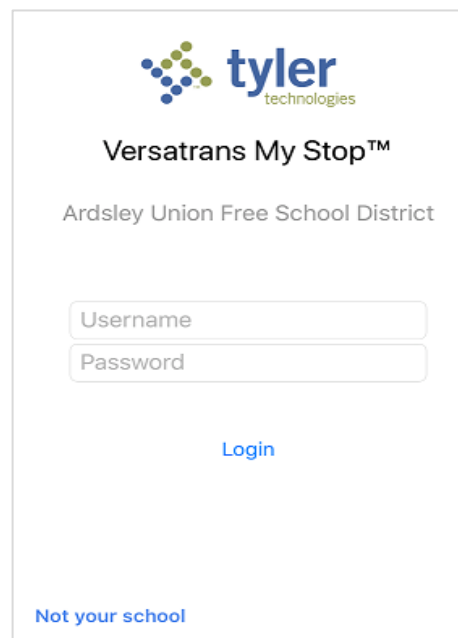

## Locate your child's bus with the Versatrans My Stop app

1. My Stop is available for your mobile device from the Apple App store for iPhone or Google Play store for Android.
2. Search for the Versatrans My Stop app and download the app to your device.
3. When you first open the app, it will ask you to select a school district:

4. After selecting the **Ardsley School District (NY)**, the login screen will appear. Please use the same username and password you use to log in to the [Transportation Portal](#). Your username is your Student's ID and your password is whatever you set it to after your initial log in to the portal. You will need to log in separately for each student.

The screenshot shows the login interface for Versatrans My Stop. At the top is the Tyler Technologies logo. Below it, the text reads "Versatrans My Stop™" and "Ardsley Union Free School District". There are two input fields: "Username" and "Password". A blue "Login" button is centered below the fields. At the bottom left, there is a link that says "Not your school".

5. Once logged in, you will see your child's bus location as a white arrow and your child's bus stop as a red pin point.

Map - Map of area. Use this feature during your student's scheduled route to locate your student's bus.

**Important note:** Since My Stop continues to periodically update, please allow time for the application to automatically refresh. Your bus's exact location on My Stop App may be delayed. Please continue to be at your bus stop 5 minutes before your student's scheduled pick up time.

Scans and Setup - Please **ignore** these buttons as we are not utilizing these features.
