ASSISTANT PRINCIPAL

Dear AMS Parents,

As part of our social and emotional learning initiative, AMS will be administering the Stanford Survey of Adolescent School Experiences in early December. This survey is the middle school version of the one that was conducted at the high school in the spring of 2018. It yielded valuable and important information that is enabling the high school to better attend to the needs of their students.

The high school results were recently presented to the Board of Education and can be viewed [here](#). The data from this survey will serve as the foundation for our school's work around social and emotional learning. For information regarding the survey, please follow this [link](#).

Regards,
Stu Horlacher
